Each year at CDE is different from the previous one in that the class levels are PROGRESSIVE. Each dancer will repeat a level anywhere from 1-4 years. Therefore, classes will progress as the students at our school become more technically proficient.

In addition, dance is a highly repetitive art, so the dancer must expect to REPEAT certain exercises and steps each and every year, even into a professional career.

This creates MUSCLE MEMORY and takes YEARS of training to attain.

Please note, each level consists of a range of dance abilities that can work well together.

CDE takes pride in our high level of technical training and proper level placement!

THANK YOU

Thank you to all of our dancers for a beautiful Dance Collage! You were all absolutely amazing and we are so proud of you.

Thank you to all of the parents for your gifts, cards and well wishes ☺
